---

## Comments

---

5. If you have additional comments about your participation in this course or suggestions about how to make the course more engaging, please share them here:

I would maybe offer more homework throughout the week. It could be optional homework, but as long as I have questions to review after every lecture I feel that I could be slightly more prepared.

n/a

It was hard in person to maintain focus during class but office hours helped a lot. I think some videos explaining practice problems to study at home would be very helpful.

15. If you have additional comments or suggestions about the assignments, reading materials, discussions, online materials, projects, rehearsals, performances, exams, or other learning components in this course, please share them here:

n/a

The test was fully practical examples of what we learned in class, but it didn't seem to connect all of the time. A little more teaching over the examples and test content would be great

24. Which elements of this course had the most positive impact on your engagement and/or learning?

The challenge of the class and overall importance of learning this material for my future was the most positive impact.

n/a

How Kasra would thoroughly explain concepts with no problem if someone didn't understand and needed help.

Office hours and working out examples helped the most

---

25. Which elements of this course could be improved to have a more positive impact on your engagement and/or learning?

I mean I just hate the pace of summer classes. That is my only complaint is summer class speed.

n/a

The classroom just seemed a little unorganized and distracting.

More working out of examples would be the best way to improve the class
